

WorkPlace

WORKFORCE MANAGEMENT SOLUTIONS

Based in Milton Keynes, WorkPlace Systems is a leading international provider of Workforce Management solutions and consulting to major customers in sectors such as Retail, Hospitality, Utilities, Emergency Services, Transportation and Manufacturing.

WorkPlace is an equal opportunities employer and pursues a culture of open communication and consultation at all levels. We provide a stimulating working environment and the chance to work on some of the most challenging technical and business problems to help our customers significantly improve their business operation, revenue and profitability.

Graduate Application Developer

With the overseas growth of our SaaS product, we have a requirement for a number of recent graduates who wish to pursue a career in application development. You will work in our application support team enhancing our market leading workforce management SaaS product. This is an ideal opportunity for a graduate looking to build their career in programming and application design. You should have a computer related degree to at least a 2:1 level and have spent a significant part of your course doing application programming and design. You should be familiar with PHP and preferably have exposure to My/SQL and Linux. The following are key attributes for the successful candidate:

- Previous work experience
- Excellent written and verbal communication skills
- Ability to quickly understand technical concepts and to explain them in clear and concise terms
- Ability to interact with other software developers
- Ability to think and work independently

These permanent roles are based in our Milton Keynes office. Full training will be given. The starting salary is £18,000 p.a.

Please forward your CV, including salary details to: Teresa Cummings, WorkPlace Systems plc, Precedent Drive, Rooksley, Milton Keynes, MK13 8PP
